Energy Emergency Surcharge (EES)

Dear clients,

We would like to inform you; we have received latest notice from Hrvatska Elektroprivreda (HEP) – Croatian National electric energy supplier on electricity price as from April 1st, 2023.

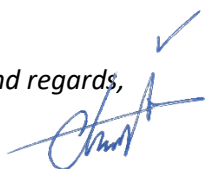

Having said that please note that from April 1st, 2023, we are adjusting **Energy Emergency Surcharge (EES)** applicable and invoiced to all clients equally as follows:

- 1) **EES of 9,50 EUR / day for each container day of storage for reefer containers.** (Additionally, to all existing and applicable commercial conditions for storing reefer containers)

We will continue to closely track and monitor electricity and fuel prices and reserve the right to increase or reduce EES as per requirement. Revision of EES will be performed at least every six (6) months as from implementation date or immediately if electricity and/or fuel prices are changed by more than 5%.

Thank you for your understanding. Should you have any additional questions please do not hesitate to contact our commercial team.

Kind regards,

Žarko Acinger
Commercial manager
