*Lashing / unlashing services to be charged separately and is applicable for containers above deck.*

*Shut-out charge applies to all containers not loaded on the vessel that were included in the final loading list.*

*Late-gate charge applies to all containers received from truck or rail after vessel gate closure time and to all containers that were loaded on the vessel and were not included in the final loading list.*

### **Cut-off and Late Gate**

- Gate Cut-off time is 24 hours before announced vessel operations readiness. It will not be altered unless the delay in arrival of a vessel is more than 8 hours.
- Late-gate requests need to be submitted before Cut-off time and accepted by AGCT.
- Late Gate charge applies to all containers requested for Late Gate by the Line and accepted by AGCT.
- Late Gate period starts with Gate Cut-off time and ends 8 hours before announced vessel operations readiness.
- All containers with accepted Late Gate not delivered to terminal in Late Gate period will be removed from final load list.

Prices in Euros.

Valid from: 1.6.2026.

Pricing for all services and cargo not specified in general tariff is available upon request.

Code	Description	Price
	Terminal equipment - Container tractor with trailer	per hour <b>130,00</b>
	Terminal equipment - Forklift over 4 t	per hour <b>90,00</b>
	Terminal equipment - Forklift up to 4 t	per hour <b>70,00</b>
	General Purpose Labor	per hour <b>20,00</b>
	Maintenance worker (mechanic, electrician)	per hour <b>25,00</b>
	Warehouse / Dispatcher (other qualified workers)	per hour <b>25,00</b>
	Equipment / tools	per hour <b>70,00</b>
	Photography of container	6 (six) photos per container <b>36,00</b>

Renominations apply to all containers which changed any of the following attributes in relation to the same data valid at the time of container reception and stacked on terminal. Attributes are: outbound vessel and/or voyage, next port of discharge and container weight.

Container status change

Will be charged to both full and empty containers if container data is not timely available to the terminal and which refer to the following:

- \* Container data/attributes at time of physical arrival, does not correspond with container data at point of container departure / creation of work order
- \* Criteria for container status change include but are not limited to following data: Vessel, Vessel voyage, Destination, Port of discharge, Weight class, Booking, ...

Misuse of container status changes

Will be charged in the event there is evidence of client's repeated misusing container status in order to:

- \* Continually gate in containers earlier than arrival window,
- \* Roll containers,

Cargo documents and deadlines:

The Line or its agent shall submit preliminary loading and discharging list not later than 48 hours before vessel intended arrival.

The Line or its agent must submit to the AGCT not later than 24 hours before the vessel planned arrival complete final set of cargo documentation in form required by AGCT as necessary for the safe, orderly and efficient discharge/loading of the vessel.

Cargo documentation shall include, but not limited to: manifests, final load and discharge lists for full and empty containers, bay plans, lashing plans, EDI files (COPRAR, MOVINS,..) and detailed descriptions of break-bulk, hazardous and reefer cargo, together with such other documents as AGCT may have notified duly in advance.

The Line's local agency under which scope AGCT fall, must send the Line's Final Load list at latest, 24 hours before vessel arrival. Format and data included should comply with AGCT requirements. Final Load list and included data will be recognized as final, accurate and verified data which is replacing all previous data of same kind, regardless of it's source or origin.

Vessel operations readiness and work start to be announced and ordered as follows:

For work start on: Tuesday 06:30 to Saturday 14:30 - 24 hours in advance and for Saturday 14:30 to Tuesday 06:30 – until Friday 14:30

For operation readiness delay of more than 2 hours from the final announced time, IDLE TIME is applied and calculated from final announced time until actual vessel operations readiness time

In case of work order cancelation or vessel operations delay for shift (8 hours) SHIFT/GANG CANCELLATION applies

Services related to rental and operations with terminal equipment include the cost of operator.
